

Live-FX™ ScentProjector Deluxe

The compact & versatile ScentProjector Deluxe runs as a stand alone unit with built-in simple control features. Perfect for continuous scenting of retail, home, hospitality and theme & entertainment. With its ease of PC or show control system integration, video, media, aromatherapy and environmental scent ambiance is possible. This Eco-friendly and economical product accommodates affordable scent beads, blotter inserts or liquid/wick scent systems.

Features:

- Duty cycle or continuous operation
- Scent intensity control dial (fan speed)
- Quick release lid screws for scent replacement
- Supports affordable scent bead packs or scent disks with infinite number of scents available including custom scent options
- Medium output design allows for large coverage*
- External Fan port for attachment of High output fan for larger coverage
- Vibration dampening foot pegs
- Integration through AV wall plates possible
- Single internal fan design resulting in lower power consumption with less movable part
- Unless using a show control system, PC control requires our DC-4 or DC-8 controller
- Horizontal mounting flange built into case

*Actual range will be dependent on air flow, scent desired, unit location, etc.
